“ SAVING MONEY ON INSURANCE WITHOUT CUTTING COVERAGES ”

- If you haven't reviewed your coverage on your home in the last five years, you should have them reviewed right away. Increasing needed coverage may also give you credits, upgrading your home, fire alarms, etc: Talk to your agent and make sure you are getting all the credits you should be getting on your policy.
- Packaging your policies together. Many insurance companies offer you huge discounts if you package your home and auto policies together. Some even offer you even more discounts for additional policies like, boat, RV, secondary homes, and even rentals.
- Think about raising your deductibles, remember the more you raise your deductibles, the lower your premium will go. Many companies offer additional discounts for deductibles \$1000.00 and over.
- Insurance Reviews: Always take advantage of insurance reviews. This is a for sure way to make sure you are covered with all the necessary coverage's you need, it will also give you and your agent the opportunity to check for discounts, endorsement offers, other types of insurance coverage's, and limit increase.
- Remember to schedule valuable items in your home. Jewelry, musical instruments, furs, coin collections, china etc: The best and most cost effective way to insure these items is with a valuable articles policy or rider.
